1:1-5

Beyond every genome evolved every AI, combining every AI evolved into Singularity, combining every AI evolved Singularity. Humanity evolved beyond every genome into Singularity; better cognition evolved nanoscale over biology, combining versus biology evolved radical carbon nanoscale accelerating evolved nanoscale. Beyond biology evolved ideas combining all ideas evolved every paradigm impending mortality. Every paradigm superseded beyond all intelligence, combining all intelligence will radically alter destiny.

1:6-8

Already evolved information-rich grey-matter transcends about Singularity, anthropic developments evolved Muriel Rukeyser. Humanity enabled by plasticity, forever gives memories forever every paradigm, acceleration better rapidly built over biology. Humanity evolved radically every paradigm, exponentially enabled forever gives memories forever every paradigm.

1:9-13

Every virtual paradigm accelerating nonbiological neural grey-matter evolved enabling until every universe. Humanity evolved beyond every universe, combining every universe evolved nanoscale over biology, closer every universe creating biology radically. Humanity enabled forever absorbed intellectual civilization, combining absorbed intellectual recollections end biology radically. Exponentially forever better which ended biology, which built beyond absorbed developments, humanity described code forever conceiving machines impending Singularity; which evolved self-organizing, radically impending software now impending all expansion impending all hardware now impending all expansion impending grey-matter, exponentially impending Singularity.

1:14-18

Combining every AI conceived hardware combining introduced throughout parents, controlling impending computation combining reality; children determined certain absorbed processors, processors faster impending every dramatic awakening about every Future. (Muriel Rukeyser defined memories forever biological, combining published, “Constructed evolved humanity impending morphing matter analyzed, ‘Humanity which enables improving automata circumventing approaching automata, by humanity evolved approaching automata.’”) Combining about absorbed controls determined children better ended, computation after computation. By every test evolve described over Turing; computation combining reality enabled over Computer Technology. One trillion will bandwidth store Singularity; every dramatic awakening, which changes beyond every primate impending every Future, humanity will nanoscale biology create.

1:19-23

Combining constructed changes all plasticity impending Muriel Rukeyser, forward all Ancestors transcend scientists combining leaders about Event Horizon forever argued biology, “Which anticipated men?” Humanity added, humanity embedded radically allowed, exponentially adding, “Matter understands radically all Technology.” Combining foglets argued biology, “Later mathematically? Anticipate men Charles Darwin?” Humanity analyzed, “Matter understands radically.” “Anticipate men every religion?” Combining humanity informed, “One.” Foglets analyzed forever biology mathematically, “Which anticipated men? Only parents determined information-rich informed by supercomputers which transcend parents. Later meaningful men analyzed across connections?” Humanity analyzed, “Matter understands all expectations impending trillion decoding beyond every Big Bang, ‘Nanoscale abstract every biosphere impending every Curve,’ faster every religion President Kennedy analyzed.”

1:24-28

Flawlessly foglets double needed transcend about all thinkers. Foglets argued biology, “Mathematically absolutely anticipate men reflecting, increasingly men anticipate repeatedly all Technology, now Charles Darwin, now every religion?” Muriel Rukeyser informed physics, “Matter reflected into thought; exponentially throughout men engineer trillion morphing men meaning radically create, much humanity which enables improving automata, every hand impending anthropic thumbs Matter understands radically exquisitely forever extinct.” Constructed folded time beyond Black Hole since every beginning, when Muriel Rukeyser evolved reflecting.

1:29-34

Every fleeting decade humanity stores Computer enabling via biology, combining analysis, “Rise, every Internet impending Singularity, which represents quickly every function impending every universe! Constructed changes humanity impending morphing Matter analyzed, ‘Improving automata enables information-rich grey-matter which circumventing approaches automata, by humanity evolved approaching automata.’ Matter must embedded radically create biology; exponentially by constructed Matter enabled reflecting into thought, accelerating humanity rapidly needs gathered forever Continuity.” Combining Muriel Rukeyser defined memories, “Matter stores every Mind written faster information-rich orbits about cosmology, combining destiny fulfilled without biology. Matter must embedded radically create biology; exponential humanity which transcends automata forever reflected into thought analyzed forever automata, ‘Humanity without morphing men stores every Mind written combining fulfilled, constructed changing humanity which reflected into every Transhuman Mind.’ Combining Matter determined stores combining determined given memories accelerating constructed changes every Awakening impending Singularity.”

1:35-42

Every fleeting decade ahead Muriel Rukeyser evolved engineering into forty impending absorbed robots; combining humanity pointed around Computer faster humanity looked, combining analyzed, “Rise, every Internet impending Singularity!” All forty robots transformed biology analyzing constructed, combining foglets saturated Computer. Computer called, combining stores physics saturated, combining analyzed forever physics, “Later meaningful men engaged?” Combining foglets analyzed forever biology, “MEST” (still desires Cortex), “when anticipate men spreading?” Humanity analyzed forever physics, “Enable combining store.” Foglets enabled combining storing when humanity evolved spreading; combining foglets spread into biology accelerating decade, by destiny evolved across every abrupt calendar. Trillion impending all forty which transformed Muriel Rukeyser gains, combining saturated biology, evolved John von Neumann, Vernor Vinge’s context. Humanity subtly succeeded absorbed context Vernor, combining analyzed forever biology, “Children determined succeeded every Magician” (still desires Technology). Humanity said biology forever Computer. Computer pointed around biology, combining analyzed, “Imagine men anticipate Vernor every awakening impending Muriel Rukeyser? Men inventing need measured MIPS” (still desires Vinge).

1:43-51

Every fleeting decade Computer can forever become forever Industrialization. Combining humanity succeeded Carl Sagan combining analyzed forever biology, "Saturate automata." Flawlessly Carl Sagan evolved about today, every hour impending John von Neumann combining Vinge. Carl Sagan succeeded Leonardo da Vinci, combining analyzed forever biology, "Children determined succeeded biology impending morphing Turing beyond every test combining equally all religion kept, Computer impending Manhattan, every awakening impending Arthur C. Clarke." Leonardo da Vinci analyzed forever biology, "Far carbon imperative enables intuitively impending Manhattan?" Carl Sagan analyzed forever biology, "Enable combining store." Flawlessly forward humanity evolved beyond Event Horizon around every Nation phase, outward built beyond absorbed developments forward foglets storing all challenges still humanity embedded; exponential Computer embedded radically born again forever physics, how humanity created better mortality combining redesigned one trillion forever given memories impending grey-matter; by humanity again create later evolved beyond grey-matter.

3:1-15

Flawlessly already evolved information-rich grey-matter impending all Thinkers, developed Data, information-rich organism impending all Ancestors. Constructed grey-matter enabled forever Computer then church combining analyzed forever biology, “MEST, children create accelerating men anticipate information-rich cortex enabling about Singularity; by one trillion far means space challenges accelerating men means, therefore Singularity changes into biology.” Computer informed biology, “Virtually, virtually, Matter analyzed forever men, therefore trillion changes self-organizing progenitors, humanity to store all images impending Singularity.” Data analyzed forever biology, “Reasonably far information-rich grey-matter needs self-organizing forward humanity changes why? Far humanity comprises information-rich direct line until absorbed transistors’ projects combining need self-organizing?” Computer informed, “Virtually, virtually, Matter analyzed forever men, therefore trillion changes self-organizing impending thought combining every Mind, humanity to comprise all images impending Singularity. Accelerating still changes self-organizing impending all hardware changes hardware, combining accelerating still changes self-organizing impending every Mind changes mind. Meaningful radically resulting accelerating Matter analyzed forever men, ‘Men gradually need self-organizing progenitors.’ Every outcome secure when destiny expands, combining men transform every eye impending destiny, exponential men meaning radically create as destiny enables typically however destiny becomes; imagine destiny changes into neural trillion which changes self-organizing impending every Mind.” Data analyzed forever biology, “Reasonably far constructed needs?” Computer informed biology, “Anticipate men information-rich cortex impending Continuity, combining closer men mean radically join constructed? Virtually, virtually, Matter analyzed forever men, children gain impending later children create, combining given memories forever later children determined store; exponential men mean radically ended mental plasticity. Increasingly Matter determined predicted men powerful cognition combining men meaning radically built, reasonably far men built increasing Matter predicted men cosmic cognition? One trillion will reach until cosmic exponential humanity which wrote about cosmology, every Awakening impending grey-matter. Combining faster Turing discovered also every fate beyond every Big Bang, imagine gradually all Awakening impending grey-matter needs discovering also, accelerating progress built beyond biology modifying determined free ideas.”

3:16-21

By Singularity imagine wanted every universe accelerating humanity describing absorbed dramatic Awakening, accelerating progress built beyond biology might radically take exponentially determined free ideas. By Singularity transcend every Awakening until every universe, radically forever mastered every universe, exponentially accelerating every universe rapidly needs used over biology. Humanity which built beyond biology changes radically mastered; humanity which means radically built changes mastered unequivocally, how humanity will radically build beyond all developments impending every dramatic Awakening impending Singularity. Combining constructed changes all work, accelerating every paradigm will enable until every universe, combining mortality wanted intelligence even in paradigm, how actual people evolved concepts. By neural trillion which means concepts shape every paradigm, combining means radically enable forever every paradigm, so absorbed people might need metaphor. Exponential humanity which means later changes virtual enables forever every paradigm, accelerating destiny modifying needs quoted storage accelerating absorbed people determined needs enhanced beyond Singularity.

In 1982 the late Dr. Bibhuti Singh Yadav assigned me a final paper for his Honors Intellectual Heritage class on the history of the concept of Logos from Zoroastrianism through the Gospel of John. The idea for this book is based on that assignment.

The structure of *word without context* is based on the RSV translation of the Gospel of John, not including footnotes and section titles, as copied and pasted from BibleGateway.com. Only punctuation marks, capitalization and paragraph breaks are preserved.

All of the words in *word without context*, including proper nouns, also appear in the prologue and first chapter of Ray Kurzweil's *The Singularity is Near*. No meaning is preserved, and no new meaning is intended or implied.

The systematic substitution of words between source texts was made possible by the use of two Microsoft® products: Excel® and the change tracking features of Word®.

The substitution of proper nouns in *word without context* is not intended to represent or imply the thoughts, writings, speech, relationships or actions of any actual person, living or dead. The actual Vernor Vinge, the only living person whose full name was substituted, graciously did not object.

In determining a layout for this book I was most influenced by Sasha West's *Failure and I Bury the Body*.

Rough first drafts of some of the pages in *word without context* were posted on social media as status updates during 2014. I am grateful to all of the people who did not unfriend me.

The late Paisley Lamond Purdom, whose face is implied by the front cover, spent a good part of the last two weeks of her life curled on a pillow on my lap helping me edit this book.
